CCTV Surveillance System:

College campuses pose many unique challenges when it comes to security. A video surveillance system must be carefully planned out in order to keep watch over the diverse assortment of facilities that comprise a typical campus community. A system of properly installed campus security cameras will go a long way in ensuring the safety of students, faculty, and facilities on campus.

Campus is secured with **55 CCTV cameras** connected with central monitoring system to monitor the class room activities from principal office and from DTE office.
